Please travel to the Madikwe Game Reserve via main roads as described below and follow the signs to Rhulani within the reserve

### Travelling Tips

Keep to the speed limit, especially when it drops down from 120km to 80km and 60km. The traffic officials are often at these spots including the small villages where the speed limit is 60km.

The best bathroom facilities en route will be at the Wimpy in Swartruggens or Zeerust. We also recommend "The Grove" in Swartruggens for a short break.

If your vehicle takes unleaded fuel, fill up in Zeerust (as you will have another 200km before you return) as the petrol stations between Zeerust and Madikwe are often out of unleaded fuel.

Please enter in contact with our front of house at the day of your arrival, especially if you arrive after 2pm, so that we can organize for you the activities and meals for the remaining time of the day.
